SINCE 1995

A commission agent, first.

Kalya Trading Company has worked out of Bhamashah Mandi in Kota since 1995. We are a commission agent and trader — a position inside the yard, not a desk outside it.

An agent stands between the arriving farmer and the purchasing processor every working day. We see the lot before it is aggregated, we know what it fetched, and we know who else wanted it.

Most bulk supply reaches a processing unit through an aggregator and one or more traders. Every layer adds cost and removes sight of the lot.

We are the first point in that chain. Volume is built to your requirement rather than sold as a fixed pack, and a sample can be in front of you before you commit.

Commodity lines

THE GROUND WE BUY ON

Kota sits between Baran and Bundi, both among Rajasthan's top five wheat districts. The same region is a principal soybean belt, Rajasthan leads India in mustard, and Kota with Ramganjmandi forms one of the country's largest coriander markets. Seven of our eight lines come off the ground around our own office.

Three groups. Eight lines.

Grade, moisture and cleaning vary by lot and season. We confirm them against your specific lot in writing rather than publishing figures we cannot hold.

01

Foodgrains

WHEAT · BASMATI RICE & PADDY

Bought between Baran and Bundi, and arranged through the northern basmati belt.

02

Oilseeds

SOYBEAN · MUSTARD SEED

From a principal soybean belt and India's leading mustard state, for plants that cannot stop.

03

Spices & Pulses

GARLIC · CORIANDER · CHANA · PULSES

Graded at the mandi before dispatch, because clove size and uniformity are decided there.

What we handle

Wheat

Mill grade, from the belt between Baran and Bundi

Roller flour mills, atta units, suji and maida processors, biscuit and bakery manufacturers.

PACKING

50kg PP or jute

Garlic

Hand graded, clove size to your process

Dehydration units at Mahuva, spice grinders, pickle manufacturers, paste processors.

PACKING

Cardboard cartons, or net bags (pink, blue or as specified)

Soybean

Oil-mill grade, from a principal soybean belt

Solvent extraction plants, oil mills, soya food manufacturers, feed compounders.

PACKING

50kg PP or jute, or bulk as agreed

Mustard Seed

Crushing grade, from India's leading mustard state

Kachi ghani oil mills, expellers, extraction plants, condiment manufacturers.

PACKING

50kg PP or jute

What we handle (continued)

Coriander

From one of India's largest dhaniya markets

Spice grinders, masala manufacturers, spice exporters, food ingredient companies.

PACKING

50kg PP or jute, or your format

Chana

Cleaned and graded before it leaves the mandi

Dal mills, besan units, pulse processors, snack and namkeen manufacturers.

PACKING

50kg PP or jute

Pulses

Graded on uniformity and foreign matter

Dal mills, pulse processors and packers, wholesale traders, institutional distributors.

PACKING

50kg PP or jute

Basmati Rice & Paddy

Trade sourced, to your grain length and ageing

Rice wholesalers, HORECA distributors, institutional buyers, own-brand packers.

PACKING

As specified by the buyer

Four steps, and we own all four.

01 Assess

We are at arrivals daily. Lots are judged against what our buyers actually need, not against a generic grade sheet.

02 Aggregate

We buy at lot level and build to your requirement. Volume is set by your plant, not by a pack we are trying to move.

03 Grade & pack

Cleaning, sorting and grading to the standard agreed for your lot, in the format your unit handles.

04 Dispatch

Transport arranged to your gate with clear documentation and the freight basis stated on the quotation.

WHAT WE WILL NOT DO

We do not quote a price, a minimum order or a dispatch date before we have seen your requirement and the lot it would come from. A figure given early is a figure a buyer holds you to later. After three decades we would rather be the supplier who gets it right than the one who quotes fastest.

What a buyer gets.

01

Origin you can name

Not 'India'. The district, the mandi, the arrival.
Seven of eight lines come off the belt around our office.

02

Volume on your terms

We aggregate to a running requirement instead of pushing a fixed lot. Trial quantities for a first order.

03

Sample before commitment

Any lot, any time. Judge the material yourself rather than take our word for it.

04

Terms in writing

Grade, packing, freight basis and validity on the quotation. Nothing promised verbally that isn't written down.

WHAT TO SEND US

■ Commodity	Which line, and the type if your process depends on it
■ Volume	Per month or per consignment, and whether it is standing
■ Specification	The parameters you buy against
■ Delivery	City and state, ex-mandi or delivered
■ Packing	The format your unit handles

We would rather tell you plainly that we cannot service a requirement than quote you a number we cannot hold.
